

Exclusive Referral Invitation – A Special Gift for You

At Body, Soul & Spirit Salon, we specialize in luxury hair care for professional and executive women with textured hair—women who prioritize the health of their hair and understand the value of expert care. As a valued client, you have the opportunity to share this experience with one special person—someone who, like you, appreciates high-quality salon services and is willing to invest in the health and beauty of their hair.

When your referral books and completes their first appointment, you will receive a complimentary Strand Therapy Treatment (a \$168 value) or a lesser-value treatment of your choice. This premium treatment deeply nourishes and restores hair that has lost elasticity, appears dull, or needs intensive repair.

Your referral will also receive 15% off their first visit as a welcome gift.

We ask that you carefully consider who you invite—this should be a professional or executive woman with textured hair who values the expertise, premium products, and high-level service we provide. Our salon is dedicated to those who are serious about investing in the long-term health of their hair.

To share this exclusive invitation, have your referral mention your name when booking or use this link: <https://www.bodysoulandspiritsalon.com/referral-client-offer.html>.
